Christmas 2011

About Memup...

Founded in France in 1991 by Franck Kalifa, Memup is a provider of storage and multimedia solutions. While focussing on the user when developing new solutions, Innovation, Design and Quality are the founding principles of the brand.

For the past 20 years, Memup has endeavoured to democratise the use of technology and has become a brand of reference. Memup designs, develops and assembles most of its products in France, and consolidates its presence in Europe daily, for instance in Austria, Benelux countries, Germany, Portugal, Spain, Switzerland and more.

In April 2011, Memup launched a comprehensive range of multimedia tablets as part of its long-term development strategy. The range is already a hit throughout Europe.

### About MemupCloud...

MemupCloud is the new online data storage and sharing space for the mass market.

MemupCloud is developed throughout Europe in partnership with YuuWaa™, the online storage offer from Gemalto, world leader in digital security. With its intuitive, multilingual software interface, the Memup-Cloud offer is very easy to install and use. In just a few clicks, you can benefit from this additional, entirely digital storage space.

**For more information, click on [www.memup.com](http://www.memup.com).**

### The benefits of MemupCloud

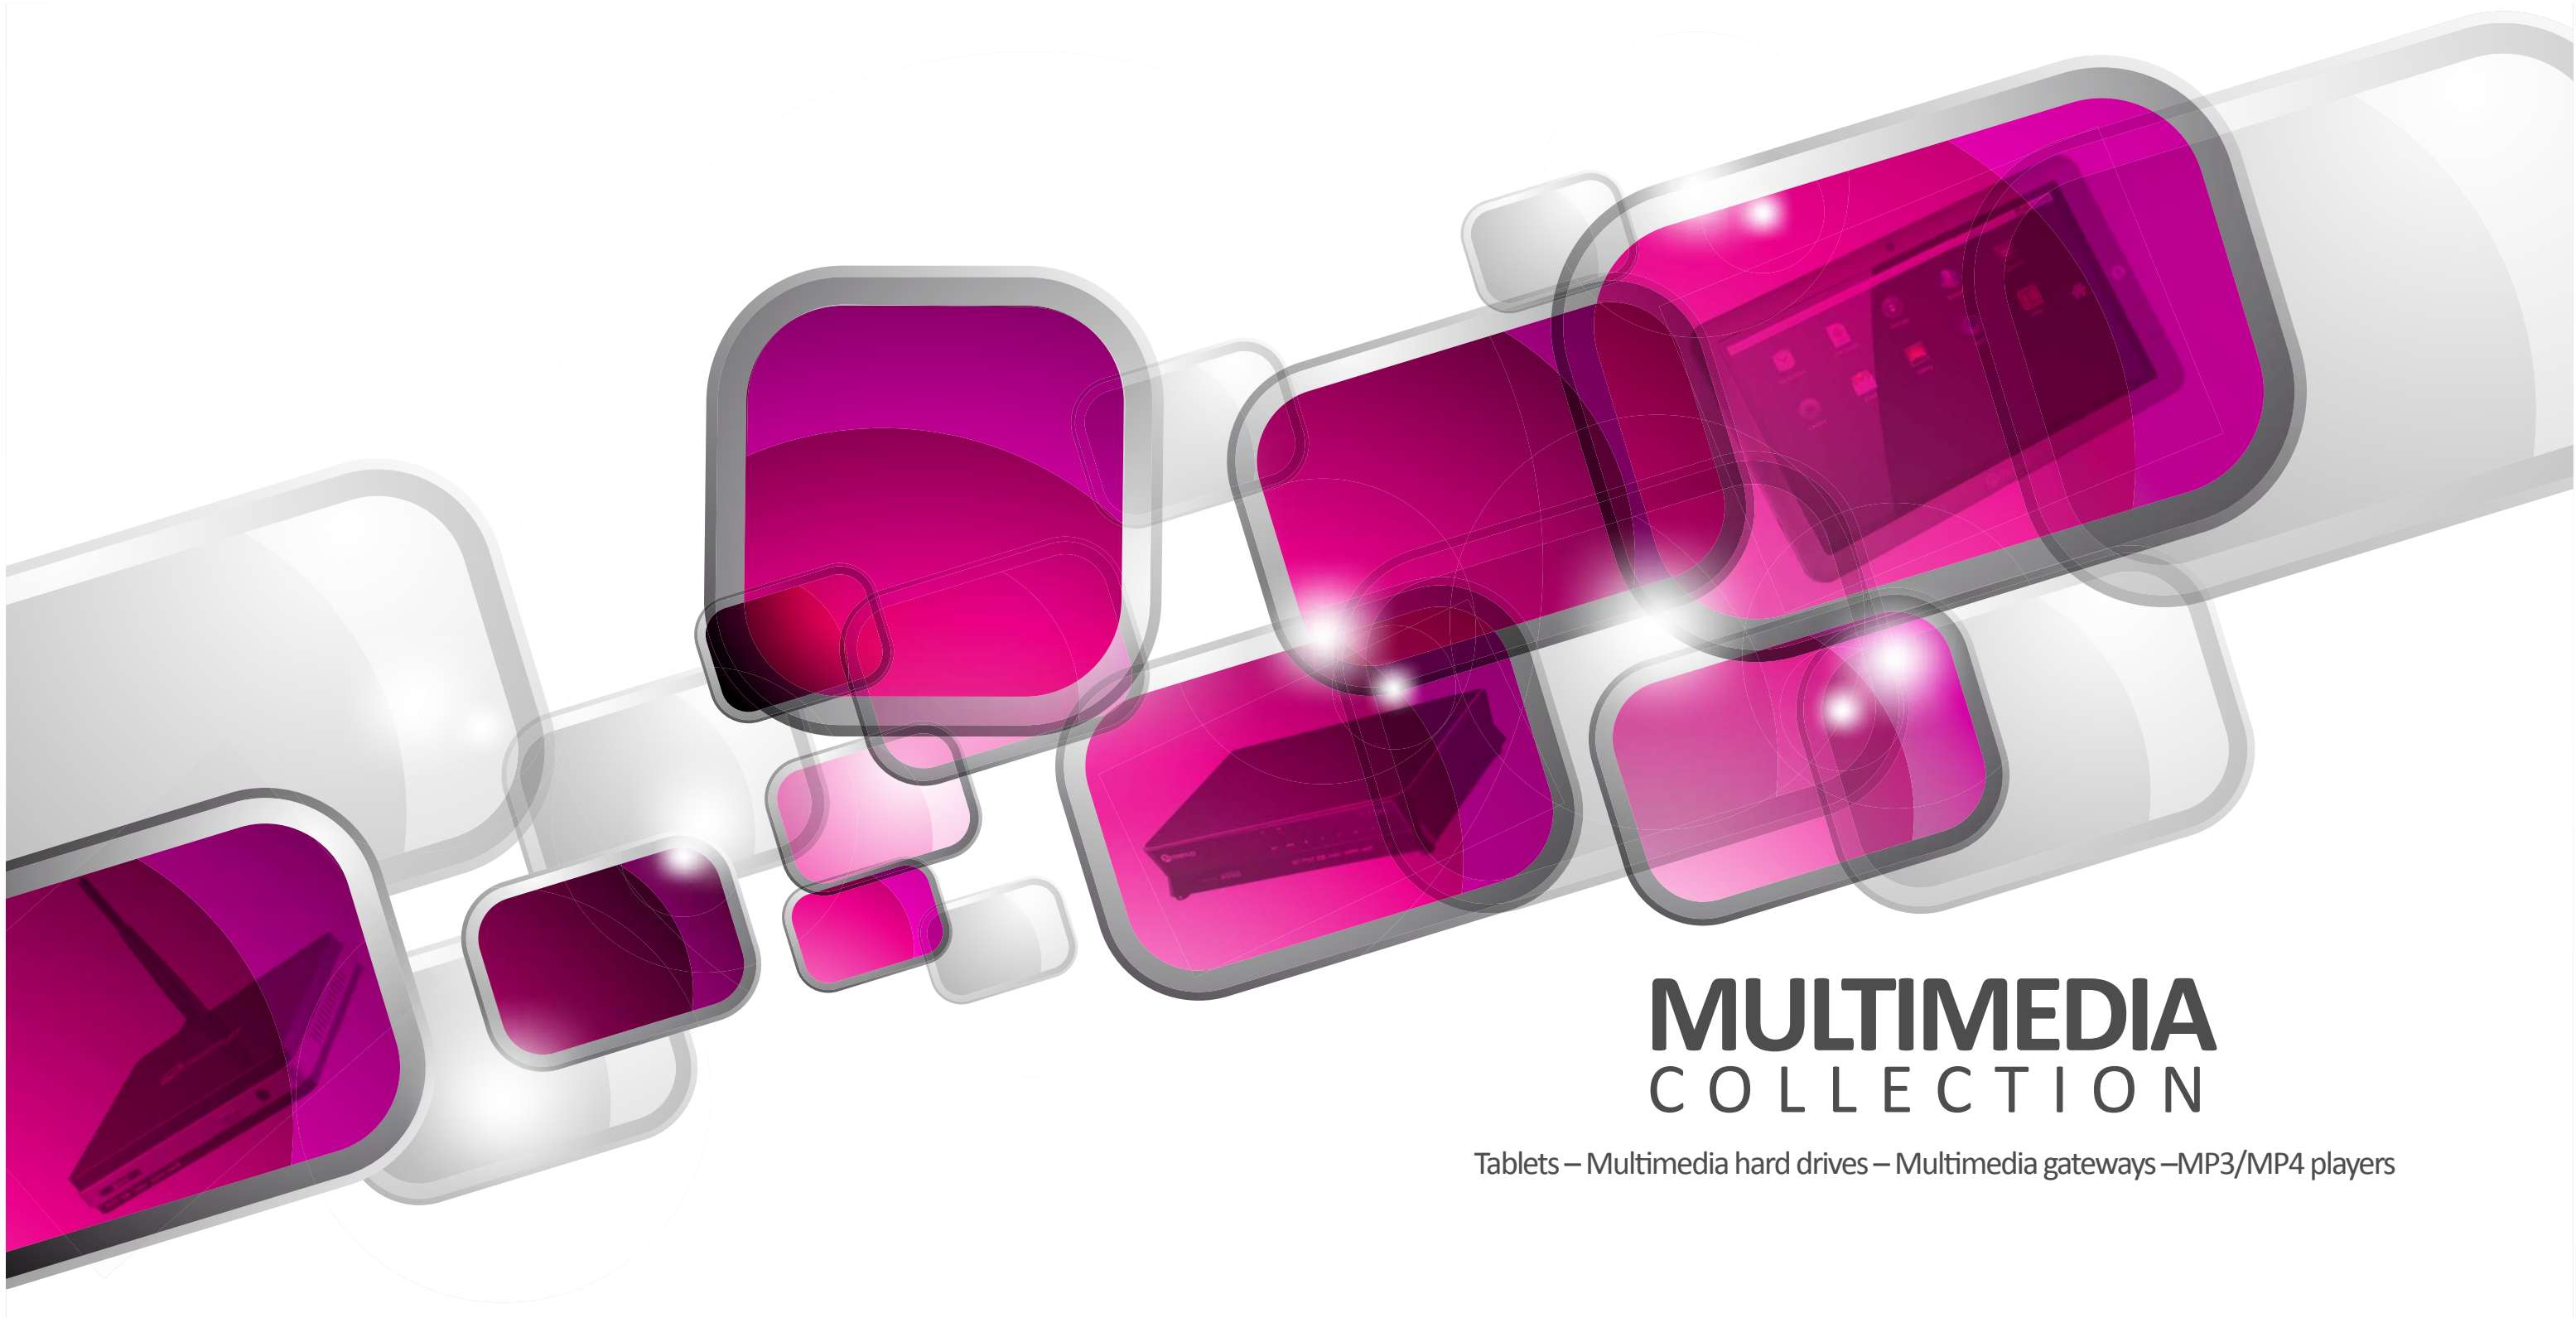

- 2 GB **free** with no time limit, thanks to a simple, intuitive online interface.
- Data saved and secured!
- A single space to **store, view and share** your data (photos, music, documents...) with friends, colleagues and family.
- Easy access from **any platform\*** (computer, tablet, iPhone or via Internet).
- **Upgradable** solution (up to 200Gb online storage space).

True to its reputation for more than 20 years, Memup once again brings new technology within reach of the masses.

**For more information, click on [www.memup.com](http://www.memup.com).**

\* Offer available from November 2011, except for tablet and iPhone versions that will be available at a later date.

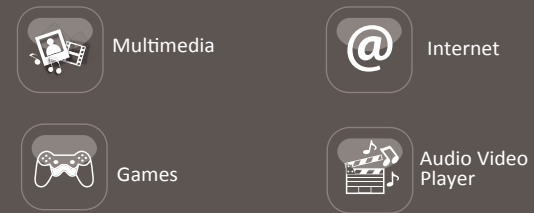

# MULTIMEDIA COLLECTION

Tablets – Multimedia hard drives – Multimedia gateways – MP3/MP4 players

The world at your fingertips!

Your multimedia companion!

# Concentrate, optimise and safeguard all your data remotely!

## The key points

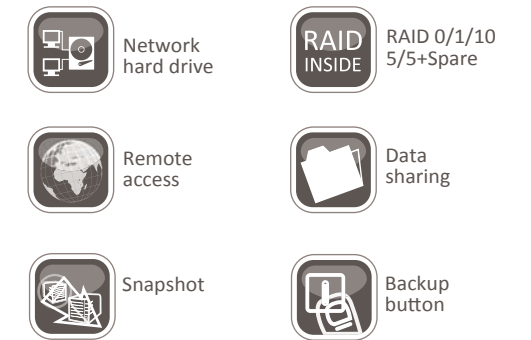

- NAS 4 bay data server
- Gigabit connection: 10/100/1000 Mbps
- Data management: 5 RAID modes
- 4 hot-swap drives
- Remote access

Kargo 4bay Series offers a safe, centralized storage solution that can adapt to and become part of your company's local network.

A complete network solution offering as many as five different RAID modes that will store and protect your data. Ideal for professionals, Kargo can manage up to 512 users, share a USB printer and host a website or company intranet.

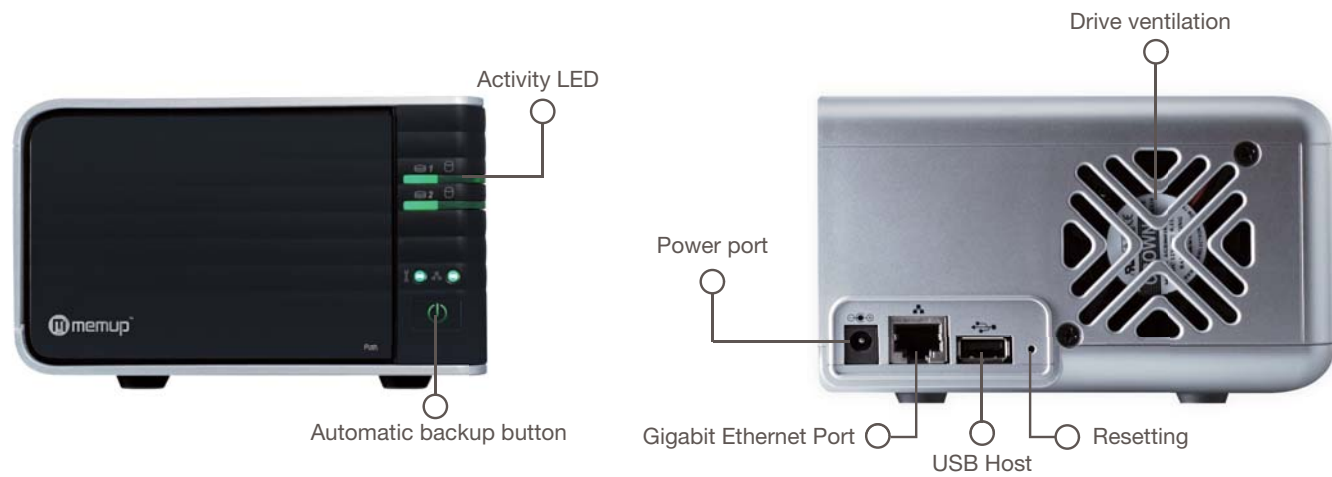

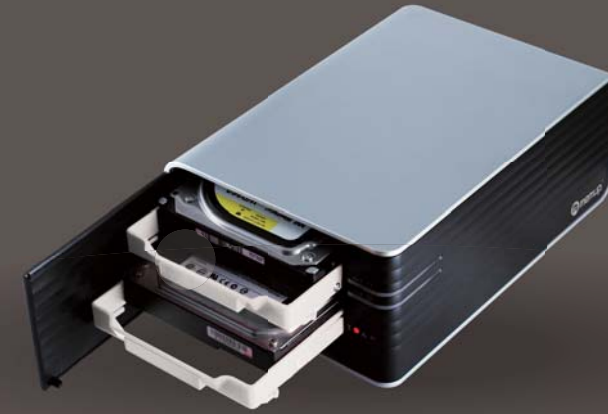

A veritable network storage server, Kargo's advanced functions let you save and share data safely remotely. In addition, its intuitive, user-friendly administration interface is very easy to set.

# Store, share and protect your data

## The key points

- NAS 2bay data server
- Ethernet connection: 10/100/1000 Mbps
- 2 hot-swap drives
- Raid 0/1 data management

Kargo 2bay Series offers a safe, centralised storage solution for the local network of a family or small company.

With its two hot-swap drives, Kargo 2bay lets you share a USB printer on the network and host a web or intranet site while protecting your data in RAID 0/1. Dedicated to integration in professional networks via Active Directory, or private networks in DHCP, Kargo also communicates with all your compatible network products via UPnP so that you can benefit from your multimedia content anywhere on the network.

# Manage all your networks from one box !

## The key points

- 5-in-1 Router / Server
- Gigabit network connection: 10/100/1000 Mbps
- Wifi connection
- 4-port Gigabit router
- Remote access

Ideal for a small company or advanced users, Q-ONE is a high-speed data server and network router that allows a group of users to share a high-speed Internet connection.

Q-ONE also has a built-in Firewall to protect the network from Internet attacks thanks to an IP or Mac address-based Web filter. Q-ONE is a powerful mail, FTP and Web server that manages your most advanced websites and blogs. You can easily access your files and change them remotely via Internet, 24/7. Q-ONE is also a printing server that can change any USB printer into a shared network printer.

A veritable UPnP multimedia server, Q-One easily lets you share your multimedia content with any UPnP device on your network. Q-One includes a veritable built-in office that can be accessed through the network using Wordpress, to create and manage a website or blog, Phpbb to create a discussion forum, a Torrent client to exchange and share multimedia files, an electronic Squirrel box and E-groupware to manage your contacts, diary and tasks.

## Beat the speed records!

### The key points

- USB 3.0 interface
- Ultra-slim, compact design
- Backward compatible with USB 2.0
- Storage capacity of up to 32Gb
- U-Safe technology

## Excellent security and reliability

### The key points

- 256 AES Encryption hardware
- Shockproof aluminium hardware
- U-Safe technology
- Compact, ergonomic design

With 5Gbps transfer rates, the USB 3.0 interface is up to 10 times faster than USB 2.0.

Quickee has been optimised to exchange large files. Pre-formatted in NTFS, it enables you to send files of more than 4Gb such as High-Definition videos.

Equipped with patented U-SAFETM technology, Quickee will safeguard your data against any kind of electric shock such as hot unplugging or power cuts.

Looking for an ultra-safe USB key to protect your confidential data?

With its super fast encryption speed, Safe Key and its sophisticated AES 256-bit hardware-based encryption system is the answer to your needs.

Available in 8, 16 and 32Gb  
 U-SAFE technology: protection against electric shocks  
 Mini size: 6.6 x 1.9 x 0.7cm – Featherweight: 10g

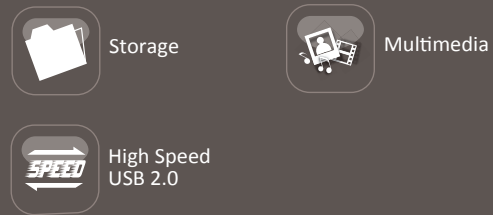

Available in 4, 8 and 16Gb  
 Data protection software provided  
 Mini size: 6.2 x 1.7 x 0.9 cm - Featherweight: 18 g

## It's the key you need!

### The key points

- Easy and handy
- Capacity of up to 64Gb
- Ultra-compact

## The easiest high-speed USB 2.0 key around!

### The key points

- Rotating cap
- Sleek and compact
- Handy

Both elegant and compact, Mov'in Key combines featherweight (8.4 g) with mini size. Equipped with Plug & Play technology, Mov'in Key is automatically detected by your computer's USB port (PC or Mac).

Now available in 64Gb, it allows you to store large amounts of data at high-performance transfer rates!

The black-and-white Twist'n Key is both functional and elegant and accompanies you everywhere.

Equipped with Plug & Play technology, Twist'n Key is automatically detected by the USB port of any computer, PC or Mac, which makes it very easy to use.

Its rotating cap turns at 360° to protect the USB connector against shocks and makes it easier to connect. Your Twist'n Key opens and shuts with the flick of a finger – no more lost caps!

Mov'in Key

- Available in 4, 8, 16, 32 and 64Gb
- Neck-sling attachment
- Mini size: 5.8 x 1.8 x 0.9cm and featherweight: 8.4g

Twist'n Key

- Available in 4, 8, 16, 32Gb
- Neck-sling attachment
- Plug & Play

## Bright and colourful!

## Create your own style!

### The key points

- Customisable ad infinitum
- 5 designs included
- High-performance sound
- Adjustable headband and swivelling earcups

## A new dimension in sound!

### The key points

- Elegant design
- Deep and powerful bass
- Multidirectional earcups
- Adjustable headband

My X-Bass Memup headphone adapts to your every desire! It comes with 5 repositionable clips with trendy designs, to make your headphones match with your style. Looking for unique headphones? My X-Bass also comes with transparent clips so that you can invent and create your own design: simply put a photo or drawing in the earpiece for a whole new look!

High-performance sound with increased bass output. The headband can be height-adjusted for greater listening comfort. The earcups can swivel 180° and fold for easier headphone storage and transport. Lastly, the pads fit comfortably over the ears to isolate the user from outside noise.

**NEW!**

With a look that is utterly ahead of its time, the latest Melody headphones combine style with technology.

They are equipped with substantial 40mm loudspeakers to give you a deep, powerful bass output. The sound quality is rich and precise. Their multidirectional earcups and adjustable headband ensure they fit perfectly.

Light and comfortable, Melody headphones have an ergonomic design so you can listen for longer without getting tired. With their 1.8m cord, Melody headphones give you greater freedom of movement and precise sound rendering from both home and mobile sound sources.

# Your mini sound bubble
